Thermo SL Performance Wire

“Everything for EDM”

Thermo SL Performance Wire

Diffusion Annealed, Brass Core - CuZn Gamma Phase Coating

Exclusively offered through Belmont, this high performance gamma phase wire is part of a new generation of EDM wires developed by THERMOCOMPACT. Thermo SL wire combines speed and precision to provide savings on wear items as well as reduced maintenance of wire EDM machines.

Thermo SL wire is suitable for all makes and models of wire EDM machines.

Benefits of using Thermo SL wire:

- Competitively priced
- Cuts up to 20% faster than standard brass wires
- Excellent for auto wire threading
- Extremely clean wire surface, reducing machine maintenance
- Increased power feed contact and filter life
- Improved workpiece surface finish
- Reduction in wire breakage
- Uses standard brass and/or coated wire technologies

SERVING ALL OF NORTH AMERICA | ISO 9001 : 2015 Registered
